Introduction

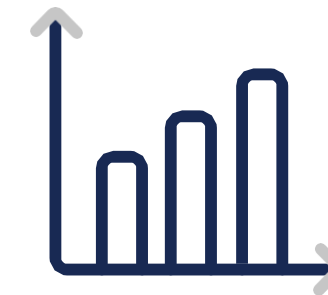

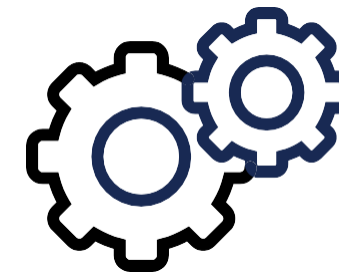

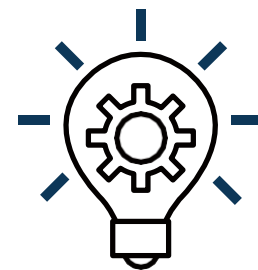

FFAST – Fajer Fire and Safety Technologies provides the complete Health & Safety Solution for upstream, downstream and midstream needs. With the thorough knowledge and deep understanding of our clients and their nature of business in Oil & Gas, Onshore & Offshore Rigs Operations, Petrochemical Refineries, Heavy Industries, Chemical Companies etc. We provide an integrated solution to cater our client's safety requirements and proactively take part in understanding the complexities & criticalities of business or job and the risk present in it and package a solution specifically to meet and exceed the expectations.

FFAST - FAJER FIRE AND SAFETY TECHNOLOGIES

OBJECTIVE

To provide the high-quality integrated Health, Safety & Environmental solutions for our clients, work places, and remote working sites; to achieve the maximum efficiency without compromising the quality and ensuring the wellbeing of the personnel working in hazardous condition as our utmost priority.

CORE COMPETENCIES

We are committed to bring best in class safety technologies to our customers in Saudi Arabia by partnering with world well known safety equipment manufacturers and safety systems service companies.

BREATHING AIR SOLUTIONS

- Provide Breathing air solutions in confined spaces, non ventilated spaces or areas where chemical or poisonous gases are present.

GAS DETECTION SOLUTIONS

- Provide the best possible solution in gas detection and monitoring services with equipment of the highest quality and 24/7 support that you need to keep your people safe and your operations profitable.

FIRE PROTECTION SOLUTIONS

- Provide all kinds of fire services that you might require, team of fully trained technicians work to keep your occupants safe and your property operating without interruption, downtime or sanctions.

CORE COMPETENCIES

We are committed to bring best in class safety technologies to our customers in Saudi Arabia by partnering with world well known safety equipment manufacturers and safety systems service companies.

CONFINED SPACE MONITORING

SAFETY TRAININGS AND ADVANCED TRAININGS

ROPE ACCESS AND RESCUE SERVICES

- Provide solutions for monitoring in confined space on continuous basis and help in managing and working safely in hazardous area. Management can view and review the entire operation from the control room.
- Provide highly skilled trainers as a resource from Europe, USA & Canada who can impart very specialized and advance training that are required for petrochemicals & refineries during their shutdowns & turnarounds.
- Provide technical emergency rescue services and life support in various situations. We have the technical capability and resources to execute the rescue operation in an efficient and timely manner.

FFAST -FAJER FIRE AND SAFETY TECHNOLOGIES

**FAJER AL-SHATA CONTRACTING CO.
HEALTH, SAFETY & ENVIRONMENTAL POLICY**

Excellence in Occupational Health, Safety and Environmental (HSE) management is one of the foundations of our vision to be an innovative, customer preferred supplier of safety solutions.

F S CONTRACTING CO. is committed to managing health, safety and environmental (HSE) matters as an integral part of our business. We believe that all occupational illnesses, workplace injuries and environmental incidents are preventable; we will never compromise HSE standards and procedures in the quest for other business priorities. We will adopt a zero tolerance approach to unsafe acts and conditions with zero occupational illnesses, injuries and incidents being our ultimate goal.

F S CONTRACTING CO. will comply with all applicable laws and regulations and will implement programs and procedures to assure compliance. Strict compliance with HSE standards will be a key element in the training and performance reviews of all employees. We will minimize risk and ensure that risk assessments are conducted for current facilities and practices as well as changes to existing processes and activities for new projects. We will maintain a drug free work environment with support from all employees. We will provide HSE training for employees. We will be prepared to properly address emergencies.

Supervisors will ensure all employees are informed of the HSE policies and procedures and receive sufficient safety and environmental training to support safe operations. As a condition of employment all employees are required to adhere to those established policies and procedures and shall participate in all safety programs, meetings and training.

We will engage in constructive dialogue with employees, clients, community leaders and other stakeholders to share information and hear their concerns and expectations with respect to HSE issues relating to new projects and ongoing operations. Additionally, we will continue in our efforts to raise the awareness of Health, Safety and Environmental issues to our host communities.

We will conserve natural resources by ensuring reduced resource consumption, effective usage and safe disposal. We will prevent and mitigate residual pollution by the development of Best Practices and planning. We will provide adequate resources to ensure the successful implementation of these practices and plans. We are committed to care for our environment and will ensure that our management systems are specifically designed to prevent pollution.

We will seek continual improvement through measuring and reporting of occupational health, safety and environmental performance with periodic development and review of goals. We will conduct regular occupational health, safety and environmental audits. This policy will be reviewed and updated annually.

FFAST - FAJER FIRE AND SAFETY TECHNOLOGIES

MEET OUR CEO

Saleh Hathal Al Mutairi

FFAST came to existence with the vision to support Saudi vision 2030 and localization for the growth of Saudi economy. We have a great IKTVA score and our objective is to device and maintain quality management system all over the organization and in all areas of work with the aim of satisfying all agreed requirements of clients within specified time frame and with full regard to Regulatory requirements and National or International Standards. We aspire to do the work right at the very first time and every time with the aim of continual augmentation in our operations.

MEET OUR COO

Mohammed Younus Ali Sadiq

I have been serving the safety industry for the past 27 years and I am very passionate about working in this Industry. It is a noble endeavor protecting lives and properties and I will continue working in this Industry all the time.

The overall majority of my professional work experience has been in the development of prosperous long lasting relationships with potential clients. I live and work with the virtue of team work, honesty and integrity.

MEET OUR FIRE SME

Ahmed Al-Sayed Saqr

I have 37 years of experience as a Safety and Fire prevention Engineer. Out of which, for 32 years, I worked in Saudi electricity co. in their loss prevention division which involved technical study & following-up all sec-eoa's projects, testing & commissioning of fire detection & protection systems, security systems (cctv system, access card, microwave, fences, security gates, security lightings, paging system, intrusion alarm system, road blockers, illumination test & all other subjects which are related to security, safety & fire like: emergency action plan, risk assessment, fire drills, training plans & safety procedure plans.

At FFAST, we go by the three E's of the fire prevention industry i.e. Engineering, Education and Enforcement.

We envision to grow with the latest technology assets coupled into our complete fire solutions and always be able assist the clients with integrity and honesty.

MEET OUR OPERATIONS MANAGEMENT TEAM

DR. FAKHRUDDIN MOHAMMED

Dr. Fakhruddin has **14 years experience** in managing **Operation Excellence and QHSE** of Oil and Gas industry and have worked with various well-known companies providing services to Onshore drillings, Offshore drillings, Well Services, Shipyard Maintenance, Turnaround, Remote area medical services and Construction sites.

JOSEPH RUBIA

Joseph has technical field experience in fire related safety equipment for more than 13 years. He manages complex installation projects in oil and gas sector. His focus is on the best quality service, support to customers and individual encouragement with extra care. He believes in staying consistent and being dedicated to exceed customer expectations.

ARCHIMEDES MALIGAYA

Archimedes has 14 years experience devoting his career to health and safety of personnel. With the slogan of “Solutions 4 Safety”, he aims to provide integrated safety solution, pro active safety culture and knowledge for the client needs. He believes that achieving high productivity at reduced cost is the key to strategic growth for everyone.

NEIL TONGCO

Neil has 16 years of experience with specialization in Safe Breathing Air Systems and protection of oil & gas workers worldwide. He believes in giving high standard of customer service that is not just the best, but equally feasible.
